PLAYERS, ROSTERS & TEAMS

We entrust our coaching staff with overseeing the player evaluation process and players chosen for teams in their respective age pure programs. The number of players selected will be determined by the need of the team and the league(s) they will participate in. **When players are chosen to participate in the Academy program, they are a member of the team.** They may be given the opportunity to play with different players and different teams in the division. They will also be given the opportunity to be coached by different instructional coaches in the division throughout the season. As young players progress at different rates.

COACHING & TRAINING

LC United is dedicated to the development of the total player. We will focus on technical, physical, and psychological skills trainings that will enable our players to compete in different soccer environments. With this type of training, we look to empower our players to reach their maximum potential. Our coaches utilize weekend games as another tool in the education process and not solely as a barometer of wins vs losses. Our staff will continually measure progress and provide regular feedback on performance. Our coaches succeed when the players have fun, increase their level of play, and develop a passion to continue to play soccer.
